Education

- **Bachelor of Computer Science and its applications**
The Hashemite University Oct 2022 – Expected Jan 2026
Expected GPA : 3.1
- **High school (Tawjihi)**
Mazhar Arslan Secondary school – Grade : 91.5 Sep 2021 – Aug 2022

Experience

- **Danish Jordanian Dairy**
IT Department Intern Jun 2025 – Aug 2025
As an Intern, I provided technical support to internal users, assisted in system and network troubleshooting, and contributed to maintaining IT documentation. I applied practical knowledge of SQL Server in real-world tasks, while strengthening my problem-solving, teamwork, and adaptability in a professional environment.
- **Extensya (on behalf of Talabat)**
Customer service Agent Jun 2023 – Sep 2023
Representing Talabat restaurant operations I handled customer inquiries inbound calls, resolved complaints promptly, and provided professional support that contributed to high satisfaction rates. I documented and tracked user requests to enhance internal workflows, while developing strong communication, problem-solving, and interpersonal skills in a fast-paced, dynamic environment.

Projects

- **Focus and read Web app**
a distraction-free web application built with ASP.NET Core MVC and SQL Server to help students with ADHD improve focus, organization, and study efficiency through customizable Pomodoro timers, AI-powered summarization, multiple interactive study modes, and a clean, minimalist interface—designed and implemented as his B.Sc. graduation project at The Hashemite University. The platform integrates smart focus tools with adaptive learning features to create a unified, accessible environment tailored specifically to the cognitive needs of neurodivergent learners.

Skills

Technical Skills: c#, Linq, EF, .NET Core MVC, .NET Core Web API, SQL Server, HTML, CSS, Bootstrap, JS.
Soft Skills: Problem Solving, Team Collaboration, Adaptability, Self-Motivated Learner, Attention to detail.

Languages

- Arabic (Native)
- English(C1)

Certificate

- UNIFLIX HU participated as Marketing Leader.
